Index to Volume 14

This index covers Journal of Hand Therapy *issues for 2001, as follows: January–March, pages 1–60; April–June, pages 61–170; July–September, pages 171–246; and October–December, pages 247–314.*

SUBJECTS

A

Abductor pollicis brevis, quantitative strength testing of [lit. abstract], 224
Adhesions, restrictive muscular,
therapy after surgical release of, 43
American Hand Therapy Foundation (AHTF),
2000 Contributors List, 58
American Shoulder and Elbow Surgeons (ASES),
Elbow Form, for disability assessment, 105
Standardized Form, for shoulder disability assessment, 68
Arthroplasty, trapeziometacarpal thumb, results of, 202
ASHT,
15th Nathalie Barr Lecture (Jean S. Casanova), 10
2000 Presidential Address (Joan L. Sullivan), 3
2001 Call for Abstracts, 248
Research Committee, for JHT research projects [editorial], 247
Author Advisory Panel, for JHT research projects [editorial], 247
Authors, JHT, instructions for, 60, 238
Automated Tactile Tester, in sensibility assessment, 266

B

Barton N, Mulligan P (eds.), *The Upper Limb and Hand* [book review], 54
Bilateral syndactyly release, functional outcomes of [proc. abstract], 229
Brachial plexus birth palsy, reconstruction of shoulder external rotation in [proc. abstract], 237
Brigham questionnaire,
for ulnar wrist disorders, 147
vs. DASH, for wrist disability assessment, 128
Burn Scar Index (Vancouver Scar Scale), 77

C

Carpal tunnel release,
cold-therapy treatments following, 208
"failed," differential diagnosis of, 258
nerve conduction findings after [proc. abstract], 234
Carpal tunnel syndrome, exercises for prevention of [proc. abstract], 231, 236
Casanova, Jean S., Nathalie Barr lecture of, 10
Children, use of upper extremity prostheses by, assessment of, 91
Clinical practice,
patterns of, in distal radius fracture management, 249
priorities in [proc. abstract], 229
therapeutic humor in [ASHT Presidential Address], 3
Codman, E. Amory, hand surgeon [lit. abstract], 223
Coefficient of variation, and sincerity of effort, in grip strength testing, 180, 188; [proc. abstract], 233
Cold-therapy treatments, following carpal tunnel release, 208
Contracture,
Dupuytren, fasciectomy for [proc. abstract], 226
of PIP joint, surgical management of [proc. abstract], 235
splint, for DIP joint [practice forum], 302
Controlled cold therapy, following carpal tunnel release, efficacy of, 208
Cumulative trauma disorders,
prevention of, carpal tunnel decompression exercise program and [proc. abstract], 231
return-to-work outcomes in [proc. abstract], 231
Currency, professional,
and information sources [editorial], 171
information overload and [Nathalie Barr lecture], 10
Cutaneous pressure threshold,
assessment of, 266
for diagnosis of nerve compression, 258

D

DASH questionnaire,
for distal radius fracture, 154
for elbow outcome assessment, 105
for shoulder disability assessment, 68
for ulnar wrist disorders, 147
for upper extremity disorders, 128
Degenerative joint disease, of thumb, trapeziometacarpal arthroplasty for, 202
Diagnostic tests, usefulness of,
likelihood ratio for [research for the clinician], 304
sensitivity and specificity for [research for the clinician], 219
DIP joint. *See* Distal interphalangeal joint.
Disabilities of the Arm, Shoulder and Hand. *See* DASH questionnaire.

Index to Volume 14

This index covers Journal of Hand Therapy *issues for 2001, as follows: January–March, pages 1–60; April–June, pages 61–170; July–September, pages 171–246; and October–December, pages 247–314.*

SUBJECTS

A

Abductor pollicis brevis, quantitative strength testing of [lit. abstract], 224
Adhesions, restrictive muscular,
therapy after surgical release of, 43
American Hand Therapy Foundation (AHTF),
2000 Contributors List, 58
American Shoulder and Elbow Surgeons (ASES),
Elbow Form, for disability assessment, 105
Standardized Form, for shoulder disability assessment, 68
Arthroplasty, trapeziometacarpal thumb, results of, 202
ASHT,
15th Nathalie Barr Lecture (Jean S. Casanova), 10
2000 Presidential Address (Joan L. Sullivan), 3
2001 Call for Abstracts, 248
Research Committee, for JHT research projects [editorial], 247
Author Advisory Panel, for JHT research projects [editorial], 247
Authors, JHT, instructions for, 60, 238
Automated Tactile Tester, in sensibility assessment, 266

B

Barton N, Mulligan P (eds.), *The Upper Limb and Hand* [book review], 54
Bilateral syndactyly release, functional outcomes of [proc. abstract], 229
Brachial plexus birth palsy, reconstruction of shoulder external rotation in [proc. abstract], 237
Brigham questionnaire,
for ulnar wrist disorders, 147
vs. DASH, for wrist disability assessment, 128
Burn Scar Index (Vancouver Scar Scale), 77

C

Carpal tunnel release,
cold-therapy treatments following, 208
"failed," differential diagnosis of, 258
nerve conduction findings after [proc. abstract], 234
Carpal tunnel syndrome, exercises for prevention of [proc. abstract], 231, 236
Casanova, Jean S., Nathalie Barr lecture of, 10
Children, use of upper extremity prostheses by, assessment of, 91
Clinical practice,
patterns of, in distal radius fracture management, 249
priorities in [proc. abstract], 229
therapeutic humor in [ASHT Presidential Address], 3
Codman, E. Amory, hand surgeon [lit. abstract], 223
Coefficient of variation, and sincerity of effort, in grip strength testing, 180, 188; [proc. abstract], 233
Cold-therapy treatments, following carpal tunnel release, 208
Contracture,
Dupuytren, fasciectomy for [proc. abstract], 226
of PIP joint, surgical management of [proc. abstract], 235
splint, for DIP joint [practice forum], 302
Controlled cold therapy, following carpal tunnel release, efficacy of, 208
Cumulative trauma disorders,
prevention of, carpal tunnel decompression exercise program and [proc. abstract], 231
return-to-work outcomes in [proc. abstract], 231
Currency, professional,
and information sources [editorial], 171
information overload and [Nathalie Barr lecture], 10
Cutaneous pressure threshold,
assessment of, 266
for diagnosis of nerve compression, 258

D

DASH questionnaire,
for distal radius fracture, 154
for elbow outcome assessment, 105
for shoulder disability assessment, 68
for ulnar wrist disorders, 147
for upper extremity disorders, 128
Degenerative joint disease, of thumb, trapeziometacarpal arthroplasty for, 202
Diagnostic tests, usefulness of,
likelihood ratio for [research for the clinician], 304
sensitivity and specificity for [research for the clinician], 219
DIP joint. *See* Distal interphalangeal joint.
Disabilities of the Arm, Shoulder and Hand. *See* DASH questionnaire.

Distal interphalangeal joint,
dynamic flexion splint for [practice forum], 51
progressive flexion contracture splint for [practice forum], 302
Distal radial metaphyseal forces, in extrinsic grip [lit. abstract], 224
Distal radius fractures,
outcome assessment of, 154
practice patterns in management of, 249
Dorsal wrist cock-up with dynamic finger extension splint, for radial nerve palsy, 195
Dupuytren contracture, fasciectomy for, postoperative complications of [proc. abstract], 226
Dynamic splints,
IP flexion [practice forum], 51
tenodesis suspension, for radial nerve palsy, 195

E

Edema, persistent, in upper limb, manual edema mobilization for, 291
Elbow,
extension of, in tetraplegic patients [proc. abstract], 234
outcome evaluation for, 105
ulnar nerve decompression at [proc. abstract], 235
Electrical stimulation, and motor axon regeneration [proc. abstract], 237
Endurance, grip, testing of, 279
Exercises, carpal tunnel decompression,
as adjunct to nonsurgical treatment [proc. abstract], 236
preventive effects of [proc. abstract], 231
Extensors, and flexors, extrinsic, transverse forces on [proc. abstract], 228

F

Flexion contracture splint, for DIP joint [practice forum], 302
Flexion splint, dynamic IP [practice forum], 51
Flexor tendon,
repair of, tenodesis splint for [practice forum], 216
splinting protocol for, 227
Flexors, extrinsic, transverse forces on [proc. abstract], 228
Forearm goniometry, new instrumentation for, 30
Functional evaluation, in sensibility assessment, 266

G

Gloves, effects on grip strength and three-point pinch, 286
Goniometry,
forearm, new instrumentation for, 30
IP joint, instrumentation for, placement preferences for, 18, 23
Green DP, et al. (eds.), *Green's Operative Hand Surgery*, 4th ed. [book review], 54
Grip force, in hand-injured patients, 279
Grip strength,
dominant vs. nondominant [proc. abstract], 232
effects of gloves on, 286
endurance testing and, 279
extrinsic, distal radial metaphyseal forces in [lit. abstract], 224
testing of,
coefficient of variation and sincerity of effort in, 180, 188; [proc. abstract], 233
GRIT for, in ulnar impaction syndrome, 173; [proc. abstract], 226
Gripping rotatory impaction test. *See* GRIT.
Grippit instrument, for grip endurance testing, 279
GRIT (gripping rotatory impaction test), for ulnar impaction syndrome, 173; [proc. abstract], 226
Gupta A, et al. (eds.), *The Growing Hand: Diagnosis and Management of the Upper Extremity in Children* [book review], 222

H

Hamilton Scale, for scar assessment, 77
Hand injuries,
adaptation to [proc. abstract], 228
traumatic, psychosocial screening for patients with, 122
Hand sensibility,
evaluation of, 266
in proximal median nerve compression, 258
Hand therapists, personal qualities of, and patient recovery [proc. abstract], 227
Hand Therapy Certification Examination, 2000 passing candidates, 170
Hand therapy practice,
humor and [ASHT Presidential Address], 3
patterns of, in distal radius fracture management, 249
priorities in [proc. abstract], 229
Humor, therapeutic [ASHT Presidential Address], 3

I

Ice therapy, following carpal tunnel release, efficacy of, 208
Impingement, shoulder, kinematic changes in [lit. abstract], 56
Information overload, management of [Nathalie Barr lecture], 10
Injured Workers Survey, for hand-injured patients, 122
Injuries, of hand,
adaptation to [proc. abstract], 228
traumatic, psychosocial screening for patients with, 122
Instructions for JHT authors, 60, 238
Instrumentation,
for IP joint goniometry, placement preferences for, 18, 23
new, for forearm goniometry, 30
for pinch strength, reliability of, 36
Interphalangeal flexion splint, dynamic [practice forum], 51
Interphalangeal joint(s),
distal, progressive flexion contracture splint for [practice forum], 302
dynamic flexion splint for [practice forum], 51
goniometry for, instrumentation placement preferences for, 18, 23
proximal, contracture of [proc. abstract], 235

Intrinsic muscles, strength assessment of, 273
IP joints. *See* Interphalangeal joints.
Isometric contractions, for grip endurance measurement, 279

J

JHT authors,
instructions for, 60, 238
mentoring for [editorial], 247

K

Key GL (ed.), *Industrial Therapy* [book review], 55

L

Light moving touch, assessment of, 266
Likelihood ratio, and diagnostic test usefulness [research for the clinician], 304
Literature review, how to write [research for the clinician], 53
Lymphedema reduction, manual edema mobilization for, 291

M

Manual edema mobilization, for persistent edema reduction, 291
Manual muscle strength testing, for intrinsic muscles of hand, 273
Median nerve, muscles innervated by, strength testing of, 273
MEM. *See* Manual edema mobilization.
Meta-analysis, how to perform [research for the clinician], 53
Motor axon regeneration, electrical stimulation and [proc. abstract], 237
Movement disorders, in Parkinson disease [lit. abstract], 308
Muscles,
intrinsic, strength assessment of, 273
restrictive adhesions on, therapy after surgical release of, 43
Musculoskeletal disorders, assessment of, 115
Myolysis, surgical, postoperative management after, 43

N

Nathalie Barr Lecture, 15th, 10
Nerve(s),
injured, sensibility assessment of, 266
proximal median compression, diagnosis of, 258
radial, splinting and palsy of, 195
repair of, outcome instrument for [lit. abstract], 308
Numeric rating scale(s), for pain assessment, 86

O

Occupational injuries. *See* Work-related injuries.
Offset goniometer, new, for forearm rotation, 30
One-point discrimination, assessment of, in proximal median nerve compression, 258
Outcome assessment [editorial], 61
of arm, shoulder, and hand disabilities, 128
for children with upper extremity prostheses, 91
of distal radius fractures, 154
of elbow pathology, 105
of nerve repair [lit. abstract], 308
overview of, 63
of pain, 86
of scar, 77
of shoulder disability, 68
of ulnar wrist disorders, 147
of work-related hand injuries, 122
of work-related musculoskeletal disorders, 115
Overload, information, management of [Nathalie Barr lecture], 10

P

Pain, outcome measures for, 86
Parent-report scale, for prosthesis use by child, 91
Parkinson disease, movement disorders in [lit. abstract], 308
Patient-rated Elbow Evaluation (PREE), development and assessment of, 105
Patient-rated Wrist Evaluation (PRWE), for distal radius fracture, 154
Patient-report scale(s),
for elbow disability, 105
for prosthesis use by child, 91
for psychosocial effects of hand injuries, 122
for scar, 77
for shoulder disability, 68
for ulnar wrist disorders, 147
Peer review, value of [editorial], 171
Persistent edema, in upper limb, manual edema mobilization for, 291
Pinch gauge(s), interinstrument reliability of, 36
Pinch strength, forearm position and [proc. abstract], 232
Pinch, three-point, effects of gloves on, 286
PIP joint. *See* Proximal interphalangeal joint.
Poritsky R, *Hand and Upper Extremity Anatomy to Color and Study* [book review], 222
Portney LG, Watkins MP, *Foundations of Clinical Research: Applications to Practice,* 2nd ed. [book review], 221
Post-myolysis rehabilitation, 43
Post-traumatic stress disorder, Injured Workers Survey for, 122
PREE. *See* Patient-rated Elbow Evaluation.
Pressure threshold, cutaneous, in sensibility testing, 258, 266
Professional currency,
and information sources [editorial], 171
information overload and [Nathalie Barr lecture], 10
Prosthetic Upper Extremity Functional Index, for children, 91
Proximal interphalangeal joint,
contracture, surgical management of [proc. abstract], 235
dynamic flexion splint for [practice forum], 51

Proximal median nerve compression, diagnosis of, thenar eminence sensibility for, 258
PRWE. *See* Patient-rated Wrist Evaluation.
PUFI. *See* Prosthetic Upper Extremity Functional Index.

Q

Quality of life, with shoulder dysfunction, self-report scales for, 68
Quantitative sensory testing, for proximal median nerve compression, 258

R

Radial nerve palsy, splinting and, 195
Range of motion, forearm, new instrumentation for, 30
Reese NB, *Muscle and Sensory Testing* [book review], 306
Reflex sympathetic dystrophy, misdiagnosis of [proc. abstract], 236
Reliability [editorial], 1
Repetitive motion, changes from, in rats [proc. abstract], 235
Research, need for [editorial], 247
Researcher–clinician collaboration, for literature reviews [research for the clinician], 53
Return-to-work outcomes, in cumulative trauma disorders [proc. abstract], 231
Reviews, literature, how to write [research for the clinician], 53
Rotator cuff, compression syndrome of, in volleyball players [lit. abstract], 56

S

Scaphoid stress fracture [lit. abstract], 223
Scar Self-rating Scale, 77
SDQ. *See* Shoulder Disability Questionnaire.
Self-report scales. *See* Patient-report scale(s).
Semmes-Weinstein monofilaments,
in sensibility assessment, 266
test scores, ethnicity and [proc. abstract], 231
Sensibility testing,
of thenar eminence, 258
review of, 266
Sensitivity, meaning of [research for the clinician], 219
SF-36. *See* Short Form 36.
Short Form 36, for outcome assessment,
of distal radius fracture, 154
of elbow pathology, 105
of ulnar wrist disorders, 147
Shoulder,
disability assessment of,
DASH vs. Shoulder Pain and Disability Index for, 128
self-report scales for, 68
external rotation reconstruction of [proc. abstract], 237
impingement of, kinematic change in [lit. abstract], 56
motion of, wrist immobilization and [proc. abstract], 230
Simmen BR, et al. (eds.), *Hand Arthroplasties* [book review], 307
Sincerity of effort, coefficient of variation as measure of, in grip strength testing, 180, 188; [proc. abstract], 233
SPADI. *See* Shoulder Pain and Disability Index.
Specificity, meaning of [research for the clinician], 219
Spinal cord injury, tendon transfer in adolescents with [proc. abstract], 234
Splints,
dynamic IP flexion [practice forum], 51
flexion contracture, for DIP joint [practice forum], 302
for radial nerve palsy, 195
tenodesis, for flexor tendon repairs, [practice forum], 216
Splinting,
early active flexor tendon, protocol for [proc. abstract], 227
and radial nerve palsy, 195
Static volar wrist cock-up splint, for radial nerve palsy, 195
Strength testing,
of abductor pollicis brevis [lit. abstract], 224
of intrinsic muscles of hand, 273
Sullivan, Joan L., ASHT 2000 Presidential Address of, 3
Suprascapular nerve disorders, in volleyball players [lit. abstract], 54
Surgical myolysis, postoperative management after, 43
Syndactyly release, bilateral, functional outcomes of [proc. abstract], 229

T

Ten test, in sensibility assessment, 266
Tendon transfer, in adolescents with spinal cord injury [proc. abstract], 234
Tenodesis splints,
for flexor tendon repairs [practice forum], 216
for radial nerve palsy, 195
Tenolysis, surgical, postoperative management of, as model for myolysis rehabilitation, 43
Test(s),
diagnostic usefulness of,
likelihood ratio for [research for clinician], 304
sensitivity and specificity for [research for clinician], 219
gripping rotatory impaction (GRIT), for ulnar impaction syndrome, 173; [proc.abstract], 226
Semmes-Weinstein monofilament, ethnicity and scores of [proc.abstract], 231
Ten, in sensibility assessment, 266
Testing,
grip endurance, 279
grip strength,
coefficient of variation and sincerity of effort in, 180, 188; [proc. abstract], 233
GRIT for, 173; [proc. abstract], 226
sensibility,
review of, 266
of thenar eminence,258
strength,
of abductor pollicis brevis [lit.abstract], 224
of intrinsic muscles of hand, 273
Thenar eminence, sensibility of, in proximal median nerve compression diagnosis, 258

Thera-Band tubing, material properties of [proc. abstract], 230
Three-point pinch, effects of gloves on, 286
Thumb arthroplasty, trapeziometacarpal, results of, 202
Trimble TE, *Principles of Hand Surgery and Therapy* [book review], 306
Two-point discrimination, assessment of, 266
in proximal median nerve compression, 258

U

UBMA. *See* Upper Body Musculoskeletal Assessment.
UEFS. *See* Upper Extremity Functional Scale.
Ulnar impaction syndrome, GRIT as quantitative measure for, 173; [proc. abstract], 226
Ulnar nerve,
decompression, at elbow [proc. abstract], 235
muscles innervated by, strength testing of, 273
Ulnar wrist disorders, outcome measures for, 147
Upper Body Musculoskeletal Assessment, for work-related disorders, 115
Upper extremity,
disorders of, DASH outcome measure for, 128
prosthesis use by children, assessment of, 91

V

Vancouver Scar Scale (Burn Scar Index), 77
Verbal rating scales, for pain assessment, 86
Vibration thresholds, assessment of, 266
Volleyball players, rotator cuff compression syndrome in [lit. abstract], 56

W

Waterloo handedness questionnaire, and grip strength [proc. abstract], 232
Work-related injuries, musculoskeletal,
assessment of, 115
gloves and, 286
Wrist,
cock-up splints, for radial nerve palsy of, 195
disability assessment of, DASH vs. Brigham questionnaire for, 128
immobilization of, and shoulder motion [proc. abstract], 230
patient-rated evaluation (PRWE), for distal radius fracture of, 154
ulnar disorders of, health status measures for, 147
